Measure: HB3501

The public is fed up with having to have their life constantly revolve around the crime, trash, and public safety issues with homeless which was obvious in the last election and this bill is going to make it ten times worse. Tax payers have right to public property and have the expectation to safely use these spaces. This will create a nightmare and leave the cities and states with no tools to move these people and everything else they bring out of public spaces. If you keep prioritizing homeless people over tax payers you are going to lose the tax payers or force them to take matters into their own hands.
