

Submitter: DeAnna Shields

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I oppose this because the last thing we need is homeless people having the right to camp anywhere anymore the city already does nothing to enforce the homeless camps everywhere the city looks like garbage and these homeless camps provide drugs to the public I see first hand in treatment centers I ask them before they get out will they be able to stay clean and they say probably not because there is a homeless camp every 2 blocks and the provide drugs to and ask people if they want to get high it's horrible needles laying everywhere rats everywhere and garbage and crime homeless people scavenging through people's yards on private property. Homeless people riding stolen bikes around the neighborhoods with head lamps on tweaking on drugs all night looking for stuff to steal in neighborhoods it's like we are living in a human apocalypse it's horrible deplorable living situation for the tax paying citizens that work every day and go to work every day it's a slap in the face that the homeless seem to have more right then we do and our city looks like the Bronx what have you guys done to our beautiful city you have ruined it and continue to come up with horrible plans like this that give the homeless more rights than tax paying citizens start cleaning this damn city up before we lose it please
