

Submitter: Garry Swanson

On Behalf Of:

Committee: House Committee On Judiciary

Measure: SB895

Thank you so much for thinking of us that cycle the roads of Oregon! We appreciate this bill as it will help keep us safe and is very proactive. Members should take a bike ride and experience a car/truck idling down behind you as you move along a road. It is so important to relieve the pressure and anxiety of the driver as they seek to pass a cyclist in a safe manner and continue their trip. We appreciate any and all safety measures that will help keep us safe as we continue to enjoy the roads and scenery along our Beautiful state.
