

Submitter: Steven Weldon

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I understand the spirit of this, I really do. I want those who are houseless to be able to have safety and security provided they afford that to others around them, as we all live in a society. This bill is not a good idea and is detrimental to the health of the communities in this state, as while those who are houseless should be able to have a place to live, oftentimes they do not present safety to those around them.

We should be auditing all non-profits who deal in this realm instead, as they are sucking money into the homeless industrial complex.

Please redact this bill.
