

Submitter: MATTHEW BECK

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

We do not benefit by further enshrining in law anything that promotes homelessness.

It's unfortunate but large, semi-permanent camps bring major problems to their community and should not be tolerated. This proposed law would make the already difficult task of managing them even worse for cities in the state.

We already have plenty of protections and regulation protecting people's right to camp when needed.

Legislative energy needs to focus on housing these people, and preventing others from joining their ranks. Not this.
