Measure: HB3501

The aims of this bill are a huge mistake. To allow for camping on public property without the ability to periodically sweep and clean the space will significantly increase the amount of filth and squalor on the streets. If this bill is passed, there also is likely to be unauthorized building of dangerous structures that will be a fire danger. I also did not see in the bill's text any creation of safety buffer zones around school campuses. This is absolutely a step in the wrong direction.
