Measure: HB3501

This is a ridiculous proposal. I do not support this. How does this improve livability for either the unhoused folks or the rest of us? At least here in Portland, there is already right to rest...and rights to set up tents, leave garbage and other detritus everywhere, block safe passage on sidewalks, verbally/physically threaten passers-by, open-air drug use, etc. Quit wasting taxpayer money on this type of legislation and focus on getting houseless folks into appropriate support systems based on their needs. Shaking my head that this is even being proposed at this point. Millions of dollars towards addressing homelessness, and this is what legislators are proposing as a partial solution?
