

Submitter: JONATHAN GOULD

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This is a horrible proposal as a bill to put our communities in utter disaray and take away public safety

As a real estate broker, and as a security professional this proposed bill truly makes both of my careers more difficult. I would like to have the old laws stand if needed clarified to provide for more community safety and property owner rights.

I understand some of the many dynamic situations that can put citizens in a position to experience houselessness. I really believe that there must be a better way for the ones that need or want to be part of the community to begin the process to help them find measurable gains on their goals.

Yes; First Amendment rights and public ordinances are worth it for safe, organized communities

If someone is staying in front of your property on the public property for their personal profit or gaining enrichment at the expense of the property owner or the public good should be cause for quick removal to organized places of public accommodation or just bring back "homesteading" on available unleased or unused public lands as a program to address these needs
