Committee: House Committee On Housing and Homelessness

Measure: HB3501

This is not the right way to go about the homeless situation that has grown out of control on the west coast and in Portland. There has to be a better way of building and establishing low income housing so that people have a safe place to rest and call their own. Allowing camping and making it legal only increases the amount of illegal criminal activity (which is well established with data) and creates an unsafe environment for those that are suffering homelessness. I do not support this bill and oppose it strongly!
