Measure: HB3501

The governor has issued a housing funding package and committed to increasing services for those experiencing homelessness. For Portland leadership, and the District 35 rep I voted for, to push to allow what is already an incredible problem for the city to not only persist, but to grow, is inexcusable. Already my partner and I refuse to enter the Portland downtown area - whether by driving, due to fear of damage to our vehicles, or by MAX, due to the lack of safety and security we have felt every time we've used it. Funding for the PPB has gone up, funding for homelessness has gone up, so where is the progress?
