Measure: HB3501

I oppose this bill because it will allow people to claim public property as their own and will make it so other people cannot use or enjoy the public space. This creates a dangerous situation for the people camping and the rest of the public. Instead of enabling people to camp on public property where it creates garbage and other waste for the city to deal with we should help people get to work by creating a program to help the state like the Civilian Conservation Corps.
