

Submitter: Kyle Shroy

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

In strong opposition to this going through. Besides the fact that this does nothing to actually help there be less homeless on the streets.... It also allows for extreme risks when it comes to fires the most obvious case being the Alameda but you also see the destruction these camps cause. A whole house and senate full of people who on one hand tell me that we must stop climate change at all costs there's pollution everywhere we must take care of our "Environement" but allow homeless camps to pollute our land, rivers, and forests. This does address nothing other than making it easier and a better option to be homeless in a state where our legislature has only made it more unlivable and unaffordable to those of us who actually work and contribute in a positive way to our communities...

You're not caring, you're not compassionate if you vote for this bill you're just blind and cruel or at worst down right malevolent.
