

Submitter: Mike Doden

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

Public land is public for all citizens, not individuals, and once you allow individuals to occupy it indiscriminately and indefinitely in a way that makes it wholly "private" to themselves - then it is no longer available for use by the "public" then does it? I've observed Oregon state lawmakers continuously making one poor decision after the next in the 25 yrs of my adult life in Oregon. If you can't see the inherent issues with HB 3501 in making this state even less livable for Oregon taxpayers by further enabling transient houseless living instead of focusing on mental illness services, addiction treatment, and protecting law abiding tax paying residents (and everyone) from criminal activity lawmakers will continue to be absolutely guilty of dereliction of their sworn duty and degrading this once great State. NO! to HB3501
