

Submitter: Vickie Westbrooks
On Behalf Of: Tax paying citizen
Committee: House Committee On Education
Measure: SB767

Representatives:

I am opposed to SB 767. There is no reason for this bill, no emergency, except evil intentions.

Leave the non-public school systems alone. Parents do have the right to choose where to send their children and you do not have the right to go along with this evil plan to take away education choices for parents.

You do have a choice. You will be held accountable. I have looked at all the testimonials that have been written against SB 767. Very few in favor of it. Please listen to the people of Oregon and do not pass this evil bill.

Sincerely,
Vickie M. Westbrooks
