HB 3501

Glaringly apparent the author and supporters of this bill are totally unaware of the damage and problems this bill creates. Should this democrat sponsored bill be passed it would move a number of Oregon cities toward slum areas. This bill would only create more divide against the homeless. Public parks would become dangerous for our kids and general population in general. I am totally ?? percent oppose to this bill.

Maybe you legislators should take a serious look at this homeless (camper) situation and the problems created. Greater majority of these people are homeless because they choose to be...it has now become their life style. The mental ill should be cared for and housed in a proper facility. The criminals should be jailed and the deadbeats turned away from handouts. Legalizing drug abuse did not fix the drug problem...it only enhanced it. No on 3501.
