

Submitter: David Poole

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This would be such a bad direction for Portland. The tax paying citizen here don't want homeless people and their garbage all over the city. It's unsafe and disgusting. There should be mandatory mental health counseling or addiction treatment for those unable to hold down a job and live like a productive member of society. They should get to ruin the city for everyone else. As a long term resident and life long democrat, I think I speak with the majority in saying these feel good "progressive" measures with on basis in reality are destroying this community.
