

Submitter: Tammy Green

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I strongly oppose this bill. Oregon has subverted the rights of the taxpayers in favor of catering to the unhoused. An individual should not expect to claim a public space as their home, and I should not have to subvert my usage of a public space that my tax dollars support to these individuals who have taken up residence in these public spaces. I agree that homelessness is a real problem that is not easily solved but please let us start with repealing measure 110, and let us staff our police force and mental health facilities to allow the enforcement of rules and support folks need. This will enable a productive society for all instead of for the few who no longer participate in it.
