

Submitter: Jonathan Salud

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

Whats the point of this? Homelessness is a crisis and giving homeless people the right to camp in a public space:

A. Makes it impossible to solve homelessness because now they don't even have to leave even if you give them a house.

B. Takes away from public space because now you are treating it like private space (by people that don't even contribute to the system)

Homeless lobbyists need a new job because they're clearly not trying to solve a problem. They're trying to make things worse so they can continue to suck taxpayer money away from actual solutions.

As a democrat it's hard to watch the far left of the party ruin our city by making ideological decisions that are not rooted in reality. Businesses and people are leaving because of camping, drugs, and crime. We've already legalized drugs, now you're working on camping, whats next? Crime? No thanks.
