

Submitter: Annette Brainard

On Behalf Of:

Committee: House Committee On Education

Measure: SB767

SB767, I am opposed to this bill. Students in public schools are not achieving high academic and are very low in learning Reading, Writing, Mathematics, Science, and History. Too much time is being spent on non-necessary curriculum and disruption. Putting more regulation on charter schools will reduce the creativity students need to want to learn. Attendance is at 70% in most cases in public schools because students and parents do not feel that education is to the standard of future successes. Students in schools of choice are getting a better education and have interest in learning.
