Committee: House Committee On Housing and Homelessness

Measure: HB3501

There is nothing addressing mental health and drug addiction in the bill. This will place more burden on the average citizen. Homeless people should not see Oregon as a safe haven. Criminals are flocking the city due to the lack of law enforcement. We need to build a strong middle class and not keep providing without incentivizing getting back into the workforce or volunteering for the meals/shelter that is provided.
