Measure: HB3501

Oregonians especially in the Portland Metro are spending hundreds of millions on tackling the homeless issue and yet we have seen no results. From bottom to top our leaders have failed us. This bill will just make the situation worse. I would hope the legislature would instead be working on real solutions to getting people off the streets instead of encouraging it. We need to cut out the "activists" in the homeless industrial complex and focus on rehab and mental health services combined with building more high density low income housing.
