Measure: HB3501

As a resident and small business owner in SE Portland- I did not think it was possible to enact new laws to make the quality of life of my fellow Portlander's worse... but here we are.

This is a childish and incompetently drawn up plan that will decrease public safety, cleanliness and wellbeing of our city all while promoting a new wave of transient migration from elsewhere to take advantage of our "compassion." This bill will also obviously overwhelm our already burdened justice system with frivolous lawsuits. This bill will create even a larger barrier for everyone involved to help those who are drug addicted to get them clean and productive members of our city.
