

Submitter: Daphne Moore

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I've been a resident of Portland since 1969. I used to be proud of my home city but now. The homeless absolutely need assistance, housing, social programs and support but not at the expense of livability for the other residents in the city. For example: I'm an avid bike rider and find garbage, needles, glass, feces, loose dogs and all other manner of hazards from the encampments along all our public pathways, bikeways and urban streets. We need stronger enforcement of removal of encampments, not less. This bill is not the solution Portlanders like myself want.
