Measure: HB3501

I firmly oppose this. We need to stop enabling this homeless crisis and do something to actually help get them off the streets. All this does is encourage more states to send their homeless here and make our beautiful state look more trashy. Spend money on getting these people the mental help they deserve. I'm tired of trying to avoid running over human feces with our stroller because we have spent so much money enabling the homeless people to remain homeless rather than helping them.
