

Submitter: SueZeev Ranseen
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SJR33

The Equal Rights for All ballot constitutional amendment referral will give Oregonians the opportunity to protect our rights and decades of hard-won freedoms. The amendment will enshrine our core values in the Oregon constitution and ensure that we can make deeply personal decisions free from government interference. Oregon has led the country with laws that promote democracy and protect our rights and freedoms. We can continue to lead by enshrining our rights and freedoms to abortion and reproductive health care, gender identity and related health care, and marriage equality into the Oregon Constitution via the Equal Rights for All ballot measure.

There is no place in our state for government actions that discriminate due to our sex, gender, gender identity, and sexual orientation - whether in employment, housing, state services, or health care. This amendment will make it clear in the Oregon constitution that each of us has the rights and freedoms to make our own deeply personal decisions about abortion and reproductive health care, gender identity and related health care, and marriage, free from undue political interference and discriminatory actions by the government.

Please vote YES on SJR 33.
