

Submitter: Theresa Slavkovsky
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SJR33

I oppose the amendment of our Oregon Constitution to allow women to have an abortion at anytime during pregnancy. It is murder to kill a child in the womb or outside of the womb. Why do you want to crush a child's skull in the womb and kill this child up until the child is born. Why do you run from life and destroy life. Life is in the womb that is why one sees displays and/or warning signs in grocery stores, liquor stores, bars, night clubs, etc. that state "drinking alcoholic beverages during pregnancy may cause birth defects". It is because alcoholic beverages cause birth defects to human life, human beings inside the mother. Why do you want to murder this precious and innocent life? And allow doctors and nurses and abortion mills to make a profit from murder. Have studied and researched how much the abortion industry earns per abortion? It is all about money, not what is best for the mother and child. Your mother did not murder you. Don't think it is okay to murder children. Have you looked in the garbage cans of an abortion mill and seen all the murdered babies with their body parts bloody and pulled apart? Killing babies is the murder of innocent people. Stop your selfishness now and let these innocent children/citizens live...your mother let you live.
