Committee: House Committee On Housing and Homelessness

Measure: HB3501

We want to get the homeless physical and mental help. It begins with them wanting help and I firmly believe that most want to be left alone, they have no interest in improving their lifestyle. Mixed messages being sent to the homeless population. I believe those sitting in the Capitol should get off their chairs and come join the American people in the real world. It is too much to navigate around the homeless population as well as their mess, stepping around feces, needles etc.... As parents we have the right to take our children to the park and feel safe not threatened.

What has happened to the rights of the American Tax Payer? Has this become the new norm to punish those following the policies, rules and regulations? It's unbelievable that if you pay no taxes, have no regards in doing the right thing that you will be applauded for it...

No wonder so many are leaving Oregon actually the entire West Coast.
