Measure: HB3501

This bill is wildly out of touch, and a terrible idea.

We can't continue to take away all avenues of enforcement without offering any other tools to handle the problems caused by campers. We're losing natural areas, because homeless campers are doing real damage to ecosystems, and tax payers are tired of picking up the bill while having no recourse. I'm tired of living in a place where the parks, natural spaces, and family friendly neighborhoods that I help pay for are being ruined and rendered unsafe.

Read the room- This is not the answer to homelessness your constituency is looking for. Please don't pass this.
