

Submitter: Michael Brainard

On Behalf Of:

Committee: House Committee On Education

Measure: SB767

I opposed SB 767 in the Senate and I again oppose it in the House, SB 767 A is unnecessary. No one is forcing students to attend any school. The only reason a school district would support this bill is because their own schools are scoring so poorly that they fear student would go to the other charter school. Charter Schools provide an alternative to the traditional public school environment. This bill has received overwhelming opposition across Oregon yet Senators of a certain party stuck their fingers in their ears and voted for this bill. Please vote no on SB 767A
