

Submitter: Paul Emge

On Behalf Of:

Committee: Senate Committee On Rules

Measure: SB27

So, is the reason this is being proposed due to the fact that the current Secretary of State is incapable of doing the job? Or, is there a hidden agenda here? I think that the best way to increase voter participation is to present us with honest, frank candidates who tell the voters their real stand on issues, instead of waltzing around and trying to avoid telling the people exactly where they stand. Monitor the voting rolls, and prevent excessive fraud by doing so. Do not add on riders to bills which do not pertain to the bill, but which place unpopular ideas into law.
Vote NO on SB 27!
