

Submitter: Anna Foss

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This bill will not be a solution to the problem, it will only enhance the problems that already occur . I have invested in a home that took me 32 years of long, hard work hours while supporting two children and paying my taxes, managing to always pay my way even in the most difficult of times. I have experienced homeless people in my area and it took no time at all before I could not walk my grandson to the store 3 blocks away, having to call the non em. # to have containers of urine picked up from in front of my home along with needles. If you want to promote this bill maybe you should put the areas of allowance in the direct neighborhoods of the people that are promoting it in Oregon government.
