

Submitter: Jennifer Fujii
On Behalf Of:
Committee: Senate Committee On Rules
Measure: SJR33

I support the Equal rights for all ballot measure. We need to respond to the injustices we are seeing across the country and make sure our rights are enshrined in the state constitution. I believe my rights to freedoms of abortion, reproductive health, gender identity & related health care, and marriage equality should be in the constitution. I voted against the same sex marriage ban and it is time to remove this hatred from our constitution.

I am a woman who values my right to lifesaving and critical health care and I am the aunt of a transgender child. They deserve to grow up in a state where their gender identity is respected and affirmed in health care settings. I have dear friends who are in same sex marriages, and I believe we need to protect everyone's rights to marry whom they choose. Please refer this amendment to the voters, who I believe will pass these amendments if given the chance.

Please support SJR 33
