

I support replacing this bridge, but oppose HB 2098 -2, because this legislation as currently written jeopardizes a right-sized Bridge Replacement, right now. I support the forthcoming -3 Amendment (and the policy recommendations offered by the Just Crossing Alliance) that ensures this replacement bridge project moves forward smoothly with explicit pro-labor provisions, finance guardrails, and major investments in mass transit.

Basically, as a cyclist who commutes over the existing bridge, any lower height drawbridge option is preferable.
