Committee: House Committee On Housing and Homelessness

Measure: HB3501

I'm writing to explain why I am in opposition to this bill. I was sitting in my front yard two weeks ago when a woman pulled up in her car and stopped about 15 feet from my two year old and one year old and myself. She threw a cigarette out her window only to reach for a pipe and torch. I immediately told her that smoking meth or fentanyl in front of children and house was unacceptable and she needed to leave. She then threw trash at us over the fence and called me "Karen" and the smoke with her head out her window and laughed as she drove away intoxicated. These are the type of people you are giving rights to after stopping them away from hardworking citizens. Please do not give people like this more ammunition, they already feel untouchable and in many ways they are.
