Committee: Joint Committee On Ways and Means

Measure: SB5506

I would really like to see the Ontario City Recreation Pool to open up. I grew up in Ontario and worked at the pool on and off for 20 years. I learned how to swim, I played there during the summers, taught swimming lessons, and life guarded at the pool. I was saddened that it closed down. It was a tremendous asset to our city. It closed during a time when I had moved away for college. I moved back to Ontario and saw that the pool was closed. I now have kids of my own that I really would love to be involved with the pool, swimming lessons, and other opportunities could come from the Ontario Pool. I am in full support of the rec district opening and operating the community Pool.
