

Submitter: Andrew Gardner

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This is a ridiculous amendment that will further entrench the completely inhumane practice of allowing people with worsening drug addiction to live in tents and not be required to move toward treatment or other shelter housing.

This just further entrenches the awful performance of the Portland and multnomah homeless industrial complex that is clearly the worst performing such agency in the nation. I plan to camp in front of the representatives houses if this ridiculous law passes.

Time to start coming up with some tough love solutions to crime, drug use and camping. Like Portugal.
