

SJR 33

My Name is Mercedes Mee,
I have been a Registered Nurse for 50 years, out
of those 50 years since 1981 I have been working
in the Neonatal Intensive Care Unit. In the
early 1980's Doctors and Nurses were taught
that Premature Babies did not feel pain, therefore
surgeries were done on this Babys without
anesthetic, we were lacking in knowledge at that
time, but now we know better.

Have you heard of the Documentar y film "a
Silent Scream"? This was an abortionist who
had done thousands of abortions and decided to
use the new technology of ultra sound as he was
doing the abortion and what he saw was horrific.
He saw a baby sucking his thumb, then screaming
in pain, but the cry could not be heard. It
was silent inside the mother.

You as a legislator can be the voice of these
babies that can not be heard, and vote no to
these criminal legislation that is being proposed.
I charge you to go to visit an NICU and see
these tiny human beings and ask yourself
if their lives don't have value, that you are
willing to terminate their lives inside
the mother.
Show us that you still have a conscience that
have not been reared and vote No.
But if you do vote yes, then also pass a legislation
that these babies be anesthetized before
killing them, so that there will not be a
Silent Scream, I submit Psalm 139:13
Please read it when you have time.

Honorable chair person thank you for
giving me the opportunity to speak
at this hearing.
