

Submitter: David Pedersen

On Behalf Of:

Committee: House Committee On Revenue

Measure: HB3014

I support this bill because it is critical - for the sake of the climate, air quality, road safety, and student and staff health - that alternative (non-automobile) modes of transportation to and from academic institutions be promoted and subsidized. Car-centric transportation inflicts devastating costs on our communities and the people residing in them, and we must do everything in our power to move away from them towards car-lite or car-free mobility. Thank you.
