

Submitter: O Ngo

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

It's admirable to try to give homeless folks more rights. However, this bill is simply not going to resolve the homelessness. Approving this bill would lead to more homelessness on the sidewalks which would cause more harms to the general public. It's terrible as is to have to walk out on the street because the sidewalks are occupied by homeless tents. Are the bill authors and sponsors going to help with the medical bills when common folks are injured because of more homeless tents/camps? Please divert your attention and energy to building more shelters for these folks. Making it more difficult to relocate dangerous, infested, and overcrowded structures/people is the opposite of making the city/state more livable and safer for everyone. Where are the rights of the common/law bidding folks? Enough with pretending to be humane and compassionate to homelessness.

Sincerely yours.
