

Submitter: Don Smith

On Behalf Of: SB 769

Committee: House Committee On Early Childhood and Human Services

Measure: SB769

On behalf of all the families who had mixed case files, and gross negligence of misrepresentation by case managers, abuse of power through "Sec 504 ADA biases and discrimination"; malicious errors purposefully placed by case managers; ie , examples; , names wrong, inaccurate case information and malicious code AI used on victim malicious errors in files by LaMDA, and gross negligence by case managers . I support SB 769. Inaccurate data , not rocket science here, it's a game of telephone , the end report of errors is not a legal document.
