Committee: House Committee On Housing and Homelessness

Measure: HB3501

HB 3501 is an extremely bad idea/ the the safety and inhabitability of the entire portland metro area. We are homeowners and tax payers in this city and continue to see thousands of dollars of our hard earned money go towards efforts that are unmonitored and demolishing this city. This will drive housing value down, people including myself will consider leaving the area. This bill would lead to eventual demise of the portland city. There is a reason public places are deemed public, for the safety of everyone to enjoy, hold business, and participate in the community. This would be a terrible decision and we do not support this bill.
