

Submitter: Amy Watts  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure: SB27

I oppose SB 27. There is nothing more to do at this point other than clean up voter registration rolls and address the weak signature verification standards issue.

Anyone and everyone can vote and register to vote very easily in Oregon. If you make it any easier to vote or register to vote, then more people will be voting more than once, including the ones who are not citizens of Oregon or even the United States.. We all know this is a means to an end where the democrats never lose power.

Vote no if you stand for any common sense, any good will toward the citizens of Oregon, or if you can take an honest look at where elections in this state are going.
