Measure: HB3501

I am writing in opposition to the Right to Rest bill. I believe this will make an already untenable situation much worse. Camping on public property is not a solution, but rather a vortex that will suck even more of the downtrodden into the nightmarish alternative economy of drugs and crime.

You can't treat public property camping as a solution when it already puts so many at risk. Public property camping is a symptom of our diseased society and is a solution to nothing. Sanctioning it will only accelerate the increases in drug addiction and crime.
