

Submitter: Benjamin Ingram

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

Due to my years of experience with homelessness,

I would definitely oppose this bill,

The majority of homeless people are choosing to live that way whether it's because of mental illness or drug induced mental illness, they are involved in theft prostitution and deadly distribution of horrible substances like fentanyl, these people need actual housing, for those that can handle, the percentage of homeless that are criminals is way to high, and laws like this will give criminals more rights and freedom to act as a criminal and not a productive member of this wonderful city
