

Submitter: Jenny Moser

On Behalf Of:

Committee: Senate Committee On Education

Measure: HB3204

I, Jenny Moser strongly support online or virtual learning because;

1. Safer environment for students. We don't have to worry about pandemic, shooters, kidnappers, bad weather or school bullies.
2. Customizable, flexible learning for children. Gives the parents more time and build better relationships between parents and children. Children can learn at their own pace and ability.
3. Ability to attend school of choice no matter where the family lives.

Please keep the virtual learning as an option. Thank you.
