

Submitter: Andrea Kozil

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure: HB3213

Dear Committee Members,

I am writing in support of HB 3213 to end the sale of cosmetics that have been tested on animals. As you may already know, for non-cruelty free cosmetics, animals are subjected to cruel and painful tests in which chemicals are put in their eyes or in their bodies. These tests are redundant and meaningless. There are SO MANY cruelty free options that there is simply no reason at all for the sale of cosmetics that are made through the use of animal tests.

It is time that Oregon recognize the power of consumerism to force the end of cruel practices and reinforce the development of animal and environment friendly products instead. Alternatives to animal testing already exist and many companies are making high quality products without harming animals.

Please vote in support of HB 3213.

Thank you
Andrea Kozil
