

Submitter: Annette Glass

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

Public land should not be used to house homeless individuals, it should be used to allow all people to access it free from houseless' garage, drugs, and human waste. There are not services in public places like a proper residence to deal with a person living on the street or public park. No running water, bathrooms, or garbage/recycle/compost bins. This bill is over reaching and should not allow people to live in filth and for others to be subjected to said filth in public places. I do not support this, house the homes less but don't let them live in public places.
