

Submitter: Bradley Solomon

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

I strongly oppose HB3501. I believe this bill would be a large step in the wrong direction for the millions of Oregonians that this bill would impact. In my opinion allowing unhoused persons to freely use any public space would result in sharply reduced public safety, and would be an ecological disaster. Without an appropriate means to handle human excrement and garbage many of Oregon's waterways, parks, beaches, mountains and forests would be at risk. These public spaces are for all who participate in society to enjoy and if this bill passes it would make many of our public places downright hazardous.
