

Submitter: Michelle LaMothe

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

This seems to be making one of the biggest problems that our western cities face, worse. Let's try to find a way to move homeless people out of our public spaces, not keep them there. We are already losing tax-paying population because of the homeless issues and we should be focused on solutions to get people off of our streets and public places. The trash and waste around homes encampments makes our cities feel post apocalyptic. It doesn't feel safe for kids to go to parks or to ride bikes around town because there are so many encampments. This proposal is not the right move. Let's clean up our streets please!
