

Submitter: Lauren Martin

On Behalf Of:

Committee: House Committee On Housing and Homelessness

Measure: HB3501

As a mother , home owner, tax payer, dont you people have anything better to do than to constantly pet the heads of the homeless? Dont they get enough hand outs, give aways, housing opportunities, food and health vouchers, etc. Do your eyes see what they are doing to communities? Ask yourself, are they contributing anything to the table? Are they making anything better, cleaner, or SAFER? There are so many children who are at risk. The streets and parks and waters are riddled with disease infested trash, human waste, drug needles and alcohol containers. There is a reason the homeless are in the place they are, with the exception of mentally ill, they have no respect and have been coddled and taught to TAKE TAKE TAKE without ever giving back anything positive. Stop making this town so overly hospitable to trash humans who want to suck the life and money and well being and cleanliness out of this town. We are working our asses off to provide for ourselves, our families and our community, why are these homeless people constantly being rewarded? Because they are doing a great job? Is it inspiring them to be better people? To get jobs and contribute? Get real. If this law passes, it truly shows that the people in charge have lost their way and are truly disconnected with the reality of all of us working class families.
